# WILD FOREVER

# WELCOME TO WILD

**As the owner of Crossed Sabres Ranch in the heart of the Shoshone National Forest, it is my privilege to welcome you to Cody Yellowstone.**

When you visit our wild Wyoming destination, you're invited to smell, see, taste, touch, and hear an authentic lifestyle that's been cherished by generations of Americans. It's the fresh scent of mountain air. The golden glow of aspen trees at sunset. The rich flavor of an open-fire chuckwagon dinner. The silence of untouched nature. And the warm breeze as you explore by horseback.

— *Kenny Long, Owner, Crossed Sabres Ranch*

Buffalo Bill Cody was proud of this amazing landscape and culture. Like him, we're dedicated to sharing it with anyone who wants to experience it — even if it's just for a little while.

So come on by. Learn the ways of the Old West. Fish in pristine blue ribbon trout streams. See the iconic sights of Yellowstone National Park — just eight miles from our ranch's door. Create your own unforgettable adventure.

We love it here. It's wild. It's Western. It's where we want to be. And we can't wait to share it with you.

## ALL-SEASON ADVENTURES

# EVERY SEASON BRINGS WONDERS

Cody Yellowstone is a true year-round destination.

## SUMMER

Summers here are legendary: star-spangled Fourth of July celebrations, Wild West Spectaculars, and nightly rodeo action. The lesser-traveled seasons of winter, spring, and fall also offer opportunities to create lifelong memories in Cody Yellowstone.

## WINTER

A season of magic. When the landscape freezes over, cross-country skiing, snowmobiling, and ice skating all heat up. Snowmobile through fresh powder into the East Gate of Yellowstone. Listen to howling wolves and watch them run across snow-covered terrain. If wildlife is what you're looking for, visiting in winter practically guarantees you'll see it all.

## SPRING

Calling all baby animal lovers! This is your best shot to see wildlife in its cutest form coming from the East Gate. Calves from bison, elk and moose, bear cubs, and lambs from bighorn sheep are most abundant this time of year.

## FALL

See the big creatures—bears, elk, moose, and bighorn sheep—prepare for winter and move into the lower valleys. Hear the lovelorn songs of bull elk as they search for mates during rutting season—a unique experience to say the least!

## CHASING (FROZEN) WATERFALLS

Did you know the South Fork Valley is home to the largest concentration of frozen waterfalls in the lower 48?

Cody Yellowstone is home to the best ice climbing in North America!
